

INFORMATION DOCUMENT FOR PARTICIPANTS

University

**EUPRON:** The role of Nurses in interprofessional pharmaceutical care in Europe

It is important that you read this document carefully before agreeing to participate in this study.

#### Aim description and duration of the study

Our aim is to investigate the role of European nurses in pharmaceutical care. In each country, we've contacted a Nurse Leader, who referred us to you. We would like to ask you to fill in a one-time electronic questionnaire that requires about 10 minutes of your time.

This study is commissioned by NuPhaC (Nurse and Pharmaceutical Care), an expert consortium with board members of the University of Antwerp, Belgium, and the University of Utrecht, the Netherlands.

### Participation, risks and inconveniences

Your participation in this study is fully voluntary. You have the right to cancel your participation at any time without giving a reason. This will not have any disadvantage. Participation in this study is not associated with any risks or inconveniences.

#### Benefits and compensation

This study contributes to a better understanding of the role of European nurses in pharmacotherapeutic care. Based on the obtained information, an interprofessional care model will be developed. We do not provide any compensation for participation in this research.

# Protection of your privacy

Your identity and participation in this study will be treated confidentially. You will not be identified by name or in any other recognisable way. The protection of personal data is legally determined under Belgian law in the royal decree of 8 December 1992.

If you agree to participate in this study, you authorise us to use your encoded data for the purposes described above.

## **Ethics Commission**

This study has been assessed and approved by the Ethical Advisory Committee on Social and Human Sciences (University of Antwerp, BE) on 10 November 2017.

## Contacts in case of questions related to the study

We would like to thank you in advance to consider participation in this study. For more information, you can always contact the <u>Nurse Leader of your country:</u>
